Error in PTO PAIR System

The PTO PAIR system shows an incorrect applicant delay of 71 days in view of completion of application requirements (i.e., Response to Notice of Missing Parts). The Response to Notice of Missing Parts (thereby completing all application requirements) was received in the PTO on December 26, 2000, based upon a Notice of Missing Parts issued by the PTO on October 16, 2000. Accordingly, since 3 months is provided for applicant response before assessing applicant delay to the Patent Term Adjustment, no applicant delay should correspond to Applicant's Response to Notice Missing Parts.

According to the Patent Term Adjustment History as indicated in PAIR, the application is noted as complete on March 28, 2001, and a 71 day delay is assessed. There

was no filing by applicant received in the PTO on March 28, 2001. For your convenience, a copy of the Patent Term Adjustment History as indicated in PAIR is attached. Applicant believes that this 71 day delay is incorrect.

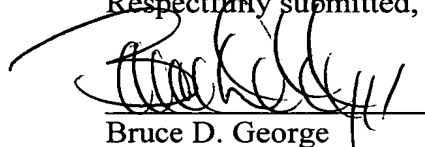

Conclusion

Applicant respectfully requests reconsideration and correction of the patent term adjustment from 393 days (as noted in the Notice of Allowance issued October 27, 2004) to **464 days: i.e., (96 days + 491 days) – (91 days + 30 days + 2 days) = 464 days.**
